- Integrated 5.1 home cinema AV receiver for external active speakers
- Fits perfectly to TV sets 43" size and bigger

Loewe **klang bar3 mr**

Active soundbar with integrated subwoofer

AVR adapter function.

Using the AVR connections, active speakers and active amplifiers with connected passive speakers of older generations and from any brand can be connected to the Loewe klang bar3 mr without an additional adapter. The speakers connected by cable are conveniently activated via the soundbar.

Multichannel and Multiroom.

Three HDMI connections and 4K pass-through leave nothing to be desired when connecting to UHD players, set-top boxes and game consoles. The 5.1 multichannel platform with Dolby Atmos support and the multiroom system with DTS Play-Fi makes expanding the system a breeze, as additional Loewe klang mr speakers can be added to the existing setup in seconds.

Streaming.

Apple AirPlay 2, Google Chromecast and Bluetooth provide a variety of services such as Spotify, Amazon Music, Tidal, Deezer and Internet radio. Stream your favourite content at the touch of a button.

Powerful cinema sound.

Enjoy this masterpiece of German engineering for absolute audio pleasure with best clarity and voluminous cinema sound.

This active 3.1 soundbar with seven front-firing speakers and two built-in subwoofers delivers a total music output of 360 watts for a room-filling and natural sound experience - including Dolby Virtual Atmos, DTS X, multiroom via DTS Play-Fi, Loewe Wireless Digital Audiolink (WDAL 2.0) and AVR connections.

Integrated subwoofers.

Two parallel, up-firing subwoofers with 4-inch drivers and bass reflex ports to the left and right provide an ambient, wide and unobtrusive bass foundation, always ready to give the necessary deep punch to strong musical expressions or film explosions.

Expandable system.

The soundbar can be expanded with additional Loewe klang mr speakers. Within seconds, klang mr1, klang mr3 or klang mr5 can be added wirelessly to an existing setup, whether for multi-channel home cinema, multi-room audio or even both at the same time.

At the same time, the system is compatible in all directions thanks to open standards. Whether third-party speakers, Loewe klang 5 or klang 9, or even the former Loewe Individual Sound System with active subwoofers and electrostatic speakers - almost anything can be connected to the klang bar3 mr.
